Model 4080 Rugged Half Page Printer

The 4080 Half-Page Printer is a proven and successfully deployed design within the TCCCS/Iris (Tactical Command Control and Communication System) program for the Canadian Department of National Defense. The vibration and shock specifications make it perfect for ground mobile use as well. The Model 4080 is designed to be lightweight (under 12 pounds), DC battery operated, prints 0 to 600 lines per minute and operates in harsh environments in accordance with the following specifications.

DataMetrics™ Corporation is the industry leader in design and manufacturing of ruggedized printers. Our primary focus is the design, testing, development, and manufacturing of electronic equipment to meet the specifications of various military and industrial applications.
