

FOR IMMEDIATE RELEASE**DATAMETRICS™ INTRODUCES TWO NEW COLOR LASER PRINTERS – MODELS 3310 & 3315**

ORLANDO, FL, January 11, 2007 – DataMetrics™ Corporation (OTCBB: DMTI) announces that on January 11, 2007 the new Color Laser Printers, Models 3310 and 3315, have been developed and are now available to the public.

The Model 3310 and 3315 color laser printers are an efficient, rugged, and low cost printing solution using the latest HP printing technology combined with DataMetrics™ rugged engineering. These printers boast 600 x 600 dpi photo quality color printing, "Instant On" technology, and optional dual voltage (110 – 127 Vac and 220 – 240 Vac) power inputs. The Model 3310 prints 8 ppm black and white or color, has 16 MB memory, and a 264 MHz processor while the more robust Model 3315 prints 10 ppm color, 12 ppm black and white, has 64 MB memory which is expandable to 320 MB, and a 300 MHz processor. In addition, the Model 3315 can print complex documents by utilizing automatic two-sided printing and using sophisticated printer languages, with support for HP PCL 6, PostScript level 3 emulation, and 80 scalable TrueType™ fonts.

"These printers offer customers entry level cost with the great performance and reliability of HP printers and DataMetrics™ engineering. The inherent rugged design and minimal moving parts makes it a dependable solution where an ordinary commercial-off-the-shelf printer would fail." said Dave Jorgenson, Senior Engineering Product Manager for printers and displays.

These rugged color laser printers are fully operational with shock up to 10G, random and sinusoidal vibration up to 2G, temperature -5° C to +40° C, humidity 10% - 95% (non-condensing), altitude up to 15,000ft, and EMI/EMC certified FCC title 47 CFR, part 15 class B.

These units will be introduced with expandable memory, optional dual voltage power inputs, and various mounting options including rack mount or table top. Prices for the Model 3310 begin at \$3,495.00 (MSRP), and \$3,995.00 (MSRP) for the Model 3315.

About DataMetrics™

DataMetrics™ designs, develops and manufactures Tempest, MIL-spec, RCOTS and COTS displays, printers, embedded and rack mountable computers, **TuffRide™** line of touch-screen computers, ATR and rack mountable VME and CompactPCI chassis, and customer-specific products. Since our founding in 1962, we have been and continue to be committed to the success of mission-critical deployments in any theater of the world—under the most adverse conditions: from the vibration of tanks and aircraft to the heat and blowing desert sand to the explosive gases and dust found in mining operations and oil rigs.
